I spoke with Tim and he said we don't have to enter the 2 – it will automatically redirect. Also, I asked him if they could get a link on the National EPA page because most people are searching the Main EPA Web Page for Information – not the Region 8 web page.

Here's the website:

They added the 2 back in. Oh well. ☺

But <http://www.epa.gov/goldkingmine> will auto-redirect, as well.

Hopefully in a minute or so, this will ALSO redirect:
